STREET CLEANING

The Approved Schedules for the Coming Fiscal Year.

LARGE AREA TO BE CLEANED BY HAND

The Work to Be Done at Greatly Reduced Cost.

CHANGE IN THE RULES

The District Commissioners today ap proved the schedules of streets to be clean ed during the coming fiscal year, the schedules having been prepared by Mr. Warner Stutler, the superintendent of the District street cleaning department. After July 1 there will be 1,200,000 square yards of streets and avenues daily cleaned by what is known as the hand system, which is nearly double the area now cleaned by hand, the District and the contractor now cleaning by this system 753,531 square yards. Among the extensions of the handcleaning work arranged for next year are ncluded 14th street, on which the work will be extended to Whitney avenue, Mt. Pleasant: Pennsylvania avenue, from 4th street east to 34th street west; H street, from 15th street east to 21st street west, and several oher prominent thoroughfares, which are largely responsible for the dirt

equired to be carried away.

In the new hand-cleaning schedule are in-luded many of the streets now being cleaned three times a week by machines. During the next fiscal year no streets will be cleaned by machine more than twice a week, and the streets to be so cleaned are embraced in six schedules. These streets will be cleaned in the order of the numbered schedules, and whenever it rains or storms to such an extent as to prevent the work scheduled for that day being done, the streets on that schedule will not, as is the rule now, await their next turn, but will be cleaned on the next favorable day, the other schedules then following in their tegular order. In addition to the 1,200,000 square yards to be daily cleaned by hand, there will every week day be about 700,000 square yards cleaned by machine.

The Cost Reduced.

As has been heretofore stated in The Star, the cleaning of the streets will, during the coming fiscal year, be done at a greatly reduced cost to the District. At present the District pays for the machine work 25% cents per 1,000 square yards, and next year it will pay but 19 cents per 1,000 square yards. The hand-cleaning work is now being done partly by the District and partly by the contractor, the latter being paid 32 cents per 1,000 square yards, while the District is doing the same character of work for less than 10 cents per 1,000 square vards. During the next fiscal year the hand-cleaning work will be done entirely by contract, and the contractor will receive for the work 21% cents per 1,000 square

> THE SATERDAY STAR Will Contain the First Installment of a Splendid New Serial.

The Saturday Star this week will contain the first installment of the new serial, preliminary announcement of which was made last week. It is the joint work of E. and H. Heron, and has received the highest praise from those who have had the oppor tunity of reading it in advance of publica tion. The plot is fresh, the intrigue ingenious, the portraiture vivid and the treatment unhackneyed. It will run through twelve numbers of the Saturday Star, and will be handsomely illustrated.

There will be many other special features of interest in The Star tomorrow, Among them are the following:

Frank Carpenter describes the life of the

people in the two cities which control

the trade of the great Amazon valley, WHEN HE TRAVELS (Illustrated) The President of the United States is not compelled to put up with any hardships; how the arrangements are made in ad-

I found my coffee habit was not to be lightly thrown saide, and became very much vexed at my own weakness. "Try my plan," my friend said, and in my extremity I finally yielded. For a week I continued its use, with great bene fit, even the bad taste in my mouth bad disappeared.
